H3K27ac a_direct_down
homophilic cell adhesion via plasma membrane adhesion molecules
cell−cell adhesion via plasma−membrane adhesion molecules
cyclic nucleotide biosynthetic process
cGMP−mediated signaling
nitric oxide mediated signal transduction
adult walking behavior
calcium−dependent cell−cell adhesion via plasma membrane cell adhesion molecules
walking behavior
cyclic purine nucleotide metabolic process
cyclic nucleotide metabolic process
cell−cell adhesion mediated by cadherin
detection of mechanical stimulus
heterophilic cell−cell adhesion via plasma membrane cell adhesion molecules
