H3K27ac a_direct_up
negative regulation of growth
regulation of monoatomic ion transport
negative regulation of developmental growth
negative regulation of cell growth
negative regulation of cell development
regulation of metal ion transport
regulation of developmental growth
negative regulation of axonogenesis
regulation of extent of cell growth
response to nutrient
negative regulation of neurogenesis
regulation of monoatomic anion transport
decidualization
blood vessel endothelial cell proliferation involved in sprouting angiogenesis
cranial nerve morphogenesis
negative regulation of axon extension involved in axon guidance
response to vitamin D
maternal placenta development
regulation of cardiac muscle cell contraction
pigment cell differentiation
